

Summing-up A-CDM@STR

From **July 14th 2014** Airport-CDM will be standard procedure at Stuttgart Airport. The main goal of A-CDM is to optimize the turnround process by giving all partners the opportunity to recognize deviations from flightplanning and to react in due time. This will be achieved by displaying all relevant information in a common data platform (Web-CaeSAr). The essential feature of A-CDM is the issue and maintenance of a TOBT as target time for the completion of the turnround process. An optimal maintained TOBT leads to an optimal consideration within the Pre-Departure Sequence, which results in a TSAT as target time for the start-up clearance.

With the beginning of A-CDM the motto is *best planned – best served*

What is important?

A-CDM is valid for all IFR-Flights at Stuttgart Airport, except helicopters.

Airline Responsibility

- Compulsory assignment of TOBT responsibility
- Supply of MTTT for the relevant aircraft type
- Indication of one or more e-mail address(es) to receive A-CDM alerts

Person responsible for the TOBT

- Application of the access to Web-CaeSAr
- TOBT maintenance
- Indication of one or more e-mail address(es) to receive A-CDM alerts

Further information concerning the A-CDM procedures can be found on the homepage of Stuttgart Airport: www.stuttgart-airport.com/cdm

A-CDM Times

ELDT	Estimated Landing Time
EXIT	Taxi-In Time depending on RWY and aircraft stand
EIBT	Estimated In-Block Time
MTTT	Minimum Turnround Time
SOBT	Scheduled Off-Block Time (Airport Slot)
EOBT	Estimated Off-Block Time
TOBT	Target Off-Block Time
TSAT	Target Start-Up Approval Time
EXOT	Taxi-Out Time depending on RWY and aircraft stand
CTOT	Calculated Take-Off Time (ATC-Slot)
AOBT	Actual Off-Block Time
TTOT	Target Take-Off Time

From July 14th 2014 the A-CDM Team Stuttgart will be available for questions and support. The Back Office will be at your disposal from 05.00 to 22.00 during the initial phase.

We are ready for A-CDM, are you ready too?

Back Office from July 14th 2014

A-CDM Team Stuttgart
 Telephone: 0711/948-4005 and -4006
